

## RoboVent Pro-Series Smoke and Fume Collectors

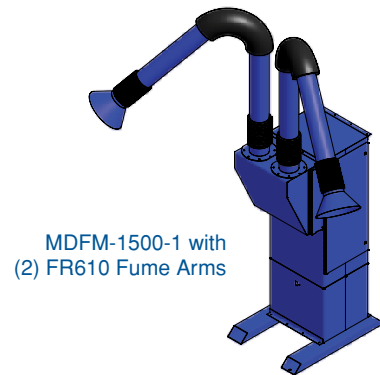

The RoboVent Pro-Series smoke collector is a versatile and simple solution for processes that produce smoke, fumes, and dust. The Pro-Series come in two sizes and can be either floor mounted, wall mounted or hung from the ceiling. Accessories such as fume arms can be added or Quick-Clamp ductwork can be used to connect to your application. The RoboVent Pro-Series filters smoke and dust particles out of the air, and returns clean air to the plant.

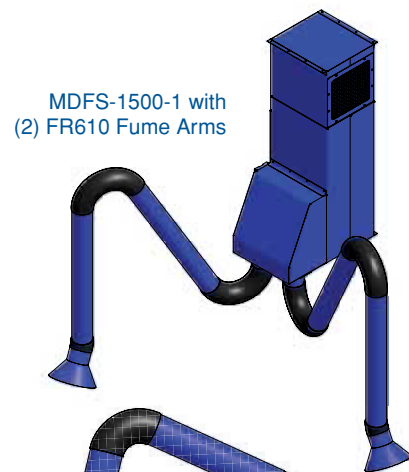

- Can be either floor mounted, wall mounted or hung from the ceiling
- (2) Different size units
- High-performance blower

(2) FR610 Fume Arms

MDFM-1500-1 with  
PowerPro Fume Arm  
model #PP-810

## RoboVent Pro-Series : Optional Configurations

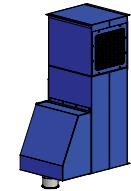

RoboVent Pro-Series  
**MDFM-1200-1**

- 1200 CFM @ 4" W.G.
- Floor mount configuration
- Includes fork pocket skids
- 110 Volt, single phase, 1-1/2 HP
- Dimensions: 24" W; 37" D; 64" H

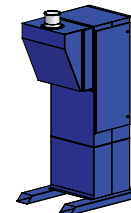

RoboVent Pro-Series  
**MDFS-1200-1**

- 1200 CFM @ 4" W.G.
- Ceiling hung configuration
- Wall brackets not included
- 110 Volt, single phase, 1-1/2 HP
- Dimensions: 24" W; 37" D; 61" H

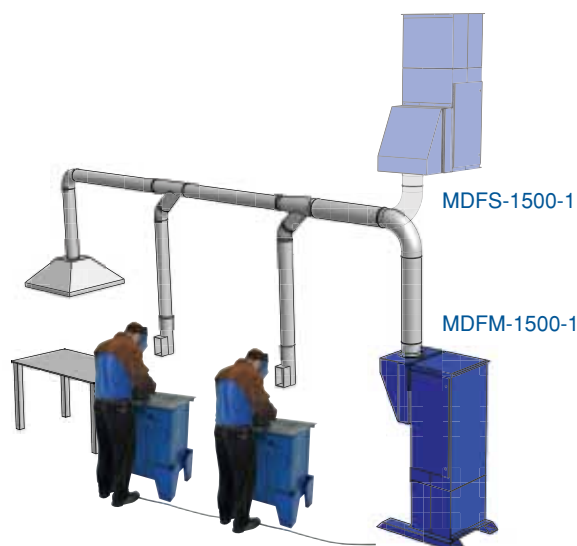

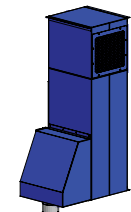

RoboVent Pro-Series  
**MDFM-1500-1**

- 1500 CFM @ 4" W.G.
- Floor mount configuration
- Includes fork pocket skids
- 230/480 Volt, three phase, 2 HP
- Dimensions: 24" W; 37" D; 74" H

RoboVent Pro-Series  
**MDFS-1500-1**

- 1500 CFM @ 4" W.G.
- Ceiling hung configuration
- Wall brackets not included
- 230/480 Volt, three phase, 2 HP
- Dimensions: 24" W; 37" D; 71" H

RoboVent Pro-Series

**Optional Accessories:**

- 8" Diameter fume arm, 10' Long — FR810
- 6" Diameter fume arm, 10' Long — FR610
- PowerPro arm (8" dia.), 10' Long — PPR810
- QuickClamp ductwork (consult factory)
