

RoboVent Trans4mer Portable Fume Extractor

The Industry's ONLY 4-in-1 Portable!

The patent pending Trans4mer Portable is four filter units packed in one compact collector. The DFP-1200-1 can literally TRANSFORM from a Single Fume Arm, to a Dual Fume Arm Portable, to a Backdraft unit, to a Downdraft Table, or become a direct ducted system — all in a single portable unit! Any one of these options can be changed in one minute or less using the unique SnapLock system.

***Flexibility in air filtration
just got a new definition!***

- Powerful, 1-1/2 HP blower, 1200 CFM @ 4" W.G.
- Heavy-duty construction, powder coat finish
- Built-in pulse cleaning (filter back-flush)
- Quiet operation
- Easy cleanout dust tray
- One year filter life guarantee
- Full 2-Year Warranty

RoboVent Trans4mer with 8" articulated fume arm.
